

# Meeting Point International

## Visiting families

On our way from the stone quarrying, despite the hotness of the sun... we moved home to home visiting our families. We went there not like the best educators nor like experts but as a friend who wants to stay with them in their daily life.

## HIV/AIDS DIALOGUE

**950** women and men on anti-retroviral drugs

I take my ARVS (antiretroviral drugs) and I think to myself " I need to live and for my children too.
